Visitors: No Visitors

Council reviewed and discussed the following

- *Felton Bar & Grill, - Liquor License has been approved effective March 1, 2026.*
- *Ariel Mosquito Control Program- rate for 2026 is \$3.10 per acre a motion was made by J Rehder and second by M Mabus to approve the contract for 2026.*
- *Building Permit for T Dulski, storage shed, dimensions 10' by 12', a motion was made by J Rehder and second by M Hilde to approve the permit.*
- *Clay County Recycle reimbursement program the city is eligible to receive \$14,500 for 2026.*
- *City cleanup day will bill be Wednesday, June 3rd.*

Well System Project

Well & Well House- Determined that water source improvements will be needed, original well drilled/constructed in 1967. Water quality, discussed cities preference for future water source, West Central Regional Water District.

Water distribution- should consider looping to eliminate dead ends, expand development potential, replacing curb stops as needed.; PR Sanitary Sewer- Ponds, Lift station, forceman constructed 2014/2015. City feel that system may have quality life remaining. MPCA Cities I/I, concern in May 2023 report averaging 207% above what ponds are designed for over last 3-4 years. Recommends to dig up 3 to 4 spots to check PVC pipes, council approved to move forward to check out pipes. Storm Sewer- most drainage along city streets is conveyed via culverts (poor condition) and shallow ditches, with a few segments of sewer.

Streets & other items-, paved streets are in very decent shape, appear to be well maintained. Street repaid most effective with utility replacement, streets are similar to water/sewer, been around for many years but still good life remaining.

Bollig recommended next steps – 1. Summary of needs; source water improvements, misc. repairs. 2. Consider task order for preliminary engineering report (PER) to pursue funding. 3. Discuss sewer televising with Dennis (People Services).

City Council discussed the recommendations. A motion was made by J Rehder and second by M Mabus and carried to approve Task order No 2- Preliminary Engineering Report and Environment Report. Basic services – study and report phase, which will take place winter 2023/Spring 2024.

Engineer cost will be \$25,000 (payable after funding secured) Mark Klema from Bollig engineering attended our meeting to review the Preliminary Engineering Report. (PER) The report reviewed our Well & Well House, the existing water distributions, Sewer system and storm sewer. The proposed recommendation is looping to eliminate dead ends, add/replace several gate valves and take advantage of system's remaining life. Existing sanitary sewer, stated that likely has quality life remaining, pavement in decent condition.

The preliminary cost estimate for the project would be – Drinking water source - \$221,000; Drinking Water Distribution - \$553,000; WEP – Ineligible - \$59,000 and replace 10 fire hydrants - \$100,000. Total costs - \$963,000. M Mabus and second by J Rehder to make a motion to approve and authorize Bollig Engineering to

Submit the Preliminary Engineering and Environmental Reports to appropriate funding agencies. Update: Bollig requested to receive our monthly minutes and agendas prior to our meetings. It was decided to send minutes after the each monthly meetings are held.

West Central Water District representatives attended our meeting to report on the rural water project update. Discussed the following: need for project; Savings to municipal and rural customers; benefits of a regional water system; evolution of project boundaries and formation; proposed improvement, provide additional sustainable, long term potable water for Norman, Clay and Polk counties.

Reported on the progress to date, Federal Project secured funding 3,500,000, and 17 cities, counties and agency resolutions/ letters of support.

- The next step for Felton, Approve a memorandum of Inclusion;
- Memorandum of understanding for of EPA funds,
- Letter to EPA, Signatory resolution of approval
- Finalize Individual City Funding Applications; into a formal agreement.
- Construction Timeline dependent on receipt of funding.

Discussed the West Central Regional Water District memorandum of Inclusion; the purpose is to formalize City of Felton's intent to be included in the West Central Water District's (WCRWD) planning efforts moved forward. A motion was made J Rehder and second by M Mabus and carried to approve the Memorandum of Inclusion. City of Felton will provide a non-refundable down payment of \$500 to the West Central Regional Water District.

Discussed the Memorandum of Understanding; purpose of this MOU is to formalize the agreement that the City of Felton will transfer its 2024 congressionally directed spending award of \$1,750,000 to Norman Country to support the establishment and development of WCRWD. With some discussion the city would like an amendment to this agreement, that it would not be used other areas, would stay between the Felton and Norman County. **No Updates**

PENDING ISSUES

- Council discussed the ordinance for mobile homes in the city, D Blake will check on the current policies that we have. Update: The city has zoning, was not an ordinance for mobile homes. Council will pass a resolution for more clarity on mobile homes.
- *Ordinance #36, should be updated, council approved an increase of \$20 for Building Permit.*
- *Follow-up on letters sent to C Speer to clean up property and a notice to H Erickson to notify of a \$100.00 violation fine, payment to be made within 20 days of the date of letter or next council meeting. With progress of violations. No updates*

Water System Project

Bollig Engineering met with the council to review assessments for the city. Discussed the following areas:

-

Meeting adjourned upon a motion by M Mabus and second by M Hilde, these minutes have not yet been approved. They will be presented for approval to the City Council at the April meeting scheduled for April 6, 2026.
